

# Print GREEN

With **U-Design** Print & Web

The **ONLY** offset printer on the Gold Coast using No Water at all in our plate making and printing process.

Resulting in a **HUGE** environmental benefit.

**NO CHEMICALS** at all are used in our plate making, plus, we use soy based inks.

U-Design also uses **30% LESS PAPER** than traditional printers saving at least, four trees per tonne of paper that we use.

Help us save 1000's of litres of water and the environment print **GREEN** with U-Design.

Let the internet do the work for you

U-Design creates websites that are an effective combination of functionality, style, and artistic creativity. Our streamlined design and development process has enabled us to design advanced websites that were traditionally out of reach for most businesses.

We have significantly reduced the cost of building a website without compromising the level of design and functionality, now starting from only \$300.

U-Design has a range of website packages to suit every business. Our web design packages are designed to get you online, quickly and inexpensively, with a clean and sophisticated look.

We offer professionally designed, affordable packages that include an advanced Content Management System, web site design, hosting, email, search engine optimisation, and domain name registration to name a few.

Present this flyer when your order your new website and receive

**FREE Domain name registration**
